

# Mathletics Tasmania (Australian Curriculum v9)

## Scope & Sequence

Year 5

Mathletics

Year 5 Australian Curriculum v8.4			Year 5 Australian Curriculum v9			New Courses: Units of Work	Activities (Courses): Topics	Skill Quests	
Strand	Content Descriptions	Code	Strand	Outcomes	Code	<b>NEW</b>	Australian Curriculum v9 Yr 05		
Number	recognise that the place value system can be extended beyond hundredths	ACMNA104	Number	interpret, compare and order numbers with more than 2 decimal places, including numbers greater than one, using place value understanding; represent these on a number line	AC9M5N01	Y5 Decimals Y5 Rounding and estimation	REVIEW Whole Numbers & Place Value Fractions decimals & percentages	Understand decimals to thousandths	
	compare, order and represent decimals	ACMNA105		express natural numbers as products of their factors, recognise multiples and determine if one number is divisible by another	AC9M5N02		Factors & multiples	Multiples & factors Divisibility tests	
	identify and describe factors and multiples of whole numbers and use them to solve problems	ACMNA098		compare and order fractions with the same and related denominators including mixed numerals, applying knowledge of factors and multiples; represent these fractions on a number line	AC9M5N03	Y5 Fractions Y6 Fractions	Compare & order fractions	Compare & order fractions	
	compare and order common unit fractions and locate and represent them on a number line	ACMNA102		recognise that 100% represents the complete whole and use percentages to describe, represent and compare relative size; connect familiar percentages to their decimal and fraction equivalents	AC9M5N04	Y5 Percentages	Fractions decimals & percentages	Fractions, decimals & percentages	
	investigate strategies to solve problems involving addition and subtraction of fractions with the same denominator	ACMNA103		solve problems involving addition and subtraction of fractions with the same or related denominators, using different strategies	AC9M5N05	Y5 Fractions Y6 Fractions	Add & subtract related fractions	Add & subtract fractions	
	solve problems involving multiplication of large numbers by one- or two-digit numbers using efficient mental, written strategies and appropriate digital technologies	ACMNA100		solve problems involving multiplication of larger numbers by one- or two-digit numbers, choosing efficient calculation strategies and using digital tools where appropriate; check the reasonableness of answers	AC9M5N06		More multiplication & division	Strategies to multiply by 1- or 2-digits	
	use efficient mental and written strategies and apply appropriate digital technologies to solve problems	ACMNA291		solve problems involving division, choosing efficient strategies and using digital tools where appropriate; interpret any remainder according to the context and express results as a whole number, decimal or fraction	AC9M5N07		More multiplication & division	Division strategies incl. remainders	
	solve problems involving division by a one-digit number, including those that result in a remainder	ACMNA101		check and explain the reasonableness of solutions to problems including financial contexts using estimation strategies appropriate to the context	AC9M5N08		Rounding & estimating	Estimation & rounding	
	use efficient mental and written strategies and apply appropriate digital technologies to solve problems	ACMNA291							
	use estimation and rounding to check the reasonableness of answers to calculations	ACMNA099							

Year 5 Australian Curriculum v8.4			Year 5 Australian Curriculum v9			New Courses: Units of Work	Activities (Courses): Topics	Skill Quests
Strand	Content Descriptions	Code	Strand	Outcomes	Code	<b>NEW</b>	Australian Curriculum v9 Yr 05	
Number			Number	use mathematical modelling to solve practical problems involving additive and multiplicative situations including financial contexts; formulate the problems, choosing operations and efficient calculation strategies, using digital tools where appropriate; interpret and communicate solutions in terms of the situation	AC9M5N09	Y5 Fractions Y6 Fractions Y6 Percentages	Solve problems	Add & subtract practical problems Multiply & divide practical problems All operations practical problems
				create and use algorithms involving a sequence of steps and decisions and digital tools to experiment with factors, multiples and divisibility; identify, interpret and describe emerging patterns	AC9M5N010			Create & use algorithms
	create simple financial plans <b>REMOVED</b>	ACMNA106						
Algebra			Algebra	recognise and explain the connection between multiplication and division as inverse operations and use this to develop families of number facts	AC9M5A01		Fact families Mult/Div	Connect multiplication & division
	find unknown quantities in number sentences involving multiplication and division and identify equivalent number sentences involving multiplication and division	ACMNA121		find unknown values in numerical equations involving multiplication and division using the properties of numbers and operations	AC9M5A02		Missing Values	Find unknown values in mult & div
	describe, continue and create patterns with fractions, decimals and whole numbers resulting from addition and subtraction <b>MOVED TO Y6</b>	ACMNA107						
Measurement	choose appropriate units of measurement for length, area, volume, capacity and mass	ACMMG108	Measurement	choose appropriate metric units when measuring the length, mass and capacity of objects; use smaller units or a combination of units to obtain a more accurate measure	AC9M5M01		Measurement	Choose appropriate metric units
	calculate perimeter and area of rectangles using familiar metric units	ACMMG109		solve practical problems involving the perimeter and area of regular and irregular shapes using appropriate metric units	AC9M5M02			Perimeter & area - practical problems
	compare 12- and 24-hour time systems and convert between them	ACMMG110		compare 12- and 24-hour time systems and solve practical problems involving the conversion between them	AC9M5M03		Time conversions & problems	Use 24-hour time
	estimate, measure and compare angles using degrees. Construct angles using a protractor	ACMMG112		estimate, construct and measure angles in degrees, using appropriate tools including a protractor, and relate these measures to angle names	AC9M5M04		Measurement	Estimate, construct & measure angles

Year 5 Australian Curriculum v8.4			Year 5 Australian Curriculum v9			New Courses: Units of Work	Activities (Courses): Topics	Skill Quests
Strand	Content Descriptions	Code	Strand	Outcomes	Code	<b>NEW</b>	Australian Curriculum v9 Yr 05	
Geometry	connect three-dimensional objects with their nets and other two-dimensional representations	ACMMG111	Space	connect objects to their nets and build objects from their nets using spatial and geometric reasoning	AC9M5SP01		Space & shape	Connect objects to nets
	use a grid reference system to describe locations. Describe routes using landmarks and directional language	ACMMG113		construct a grid coordinate system that uses coordinates to locate positions within a space; use coordinates and directional language to describe position and movement	AC9M5SP02			Use coordinates in a grid system
	describe translations, reflections and rotations of two-dimensional shapes. Identify line and rotational symmetries	ACMMG114		describe and perform translations, reflections and rotations of shapes, using dynamic geometric software where appropriate; recognise what changes and what remains the same, and identify any symmetries	AC9M5SP03			Identify & describe transformations
	apply the enlargement transformation to familiar two-dimensional shapes and explore the properties of the resulting image compared with the original <b>REMOVED</b>	ACMMG115						
Statistics	construct displays, including column graphs, dot plots and tables, appropriate for data type, with and without the use of digital technologies	ACMSP119	Statistics	acquire, validate and represent data for nominal and ordinal categorical and discrete numerical variables, to address a question of interest or purpose using software including spreadsheets; discuss and report on data distributions in terms of highest frequency (mode) and shape, in the context of the data	AC9M5ST01		Statistics	Acquire, validate & represent data Understand data distributions
	describe and interpret different data sets in context	ACMSP120		interpret line graphs representing change over time; discuss the relationships that are represented and conclusions that can be made <b>NEW</b>	AC9M5ST02			Interpret line graphs
	pose questions and collect categorical or numerical data by observation or survey	ACMSP118		plan and conduct statistical investigations by posing questions or identifying a problem and collecting relevant data; choose appropriate displays and interpret the data; communicate findings within the context of the investigation	AC9M5ST03			
	describe and interpret different data sets in context	ACMSP120						
Probability	list outcomes of chance experiments involving equally likely outcomes and represent probabilities of those outcomes using fractions	ACMSP116	Probability	list the possible outcomes of chance experiments involving equally likely outcomes and compare to those which are not equally likely	AC9M5P01		Chance & Probability	Outcomes of chance experiments
				conduct repeated chance experiments including those with and without equally likely outcomes, observe and record the results; use frequency to compare outcomes and estimate their likelihoods <b>NEW</b>	AC9M5P02			
	recognise that probabilities range from 0 to 1 <b>MOVED TO Y6</b>	ACMSP117						

	Term one	Term two	Term three	Term four
Unit 1	<b>Number</b>	<b>Number</b>	<b>Number</b>	<b>Number Algebra</b>
	<b>Whole number and decimals</b> <ul style="list-style-type: none"> <li>Place value to thousandths</li> <li>Partitioning</li> <li>Compare &amp; order</li> <li>Whole number review</li> </ul>	<b>Fractions</b> <ul style="list-style-type: none"> <li>Compare and order</li> <li>Mixed numbers &amp; improper fractions</li> <li>Equivalent fractions</li> <li>Add &amp; Subtract fractions: Same or related denominators</li> </ul>	<b>Fractions, decimals, and percentages</b> <ul style="list-style-type: none"> <li>Connect fraction, decimal and percentage equivalents</li> <li>Represent remainders as fractions and decimals</li> <li>Problem solving</li> </ul>	<b>Number and operations review</b> <p>Review earlier content</p>
Unit 2	<b>Number</b>	<b>Number Algebra</b>	<b>Number</b>	<b>Statistics</b>
	<b>Addition and subtraction: Mental</b> <ul style="list-style-type: none"> <li>Round to estimate</li> <li>Problem solving</li> <li>Strategy review</li> </ul>	<b>Multiplication and division: Mental strategies</b> <ul style="list-style-type: none"> <li>Efficient mental strategies</li> <li>Factorising</li> <li>Problem solving</li> </ul>	<b>Multiplication and division: Written strategies</b> <ul style="list-style-type: none"> <li>Multiplication algorithm</li> <li>Contracted division</li> <li>Problem solving</li> </ul>	<b>Data: Investigation and evaluation</b> <ul style="list-style-type: none"> <li>Misleading diagrams</li> <li>Evaluate statements about displays</li> <li>Interpret data displays</li> <li>Mode</li> </ul>
Unit 3	<b>Number Algebra</b>	<b>Number Algebra</b>	<b>Probability Statistics</b>	<b>Measurement</b>
	<b>Factors, multiples and patterns</b> <ul style="list-style-type: none"> <li>Factors, Multiples</li> <li>Common multiples</li> <li>Divisibility tests</li> <li>Patterns with factors &amp; multiples</li> </ul>	<b>Algebra</b> <ul style="list-style-type: none"> <li>Create and use algorithms</li> <li>Inverse operations</li> <li>Fact families</li> <li>Find unknown values</li> </ul>	<b>Chance and data</b> <ul style="list-style-type: none"> <li>List outcomes</li> <li>Conduct chance experiments</li> <li>Record results</li> <li>Compare outcomes</li> <li>Estimate likelihoods</li> </ul>	<b>Time and position</b> <ul style="list-style-type: none"> <li>Read and represent 12- &amp; 24-hour time</li> <li>Convert times</li> <li>Use timetables</li> <li>Grid coordinate systems</li> <li>Directional language</li> </ul>
Unit 4	<b>Measurement Number</b>	<b>Measurement</b>	<b>Space</b>	<b>Measurement</b>
	<b>Length, area and perimeter</b> <ul style="list-style-type: none"> <li>Kilometres, metres, centimetres &amp; millimetres</li> <li>Compare &amp; order lengths</li> <li>Estimate lengths</li> <li>Calculate perimeter</li> <li>Calculate area</li> </ul>	<b>Addition and subtraction: Written</b> <ul style="list-style-type: none"> <li>Written strategies</li> </ul>	<b>Angles and 2D shapes</b> <ul style="list-style-type: none"> <li>Measure angles</li> <li>Estimate angles</li> <li>Classify angles</li> <li>Translations, reflections &amp; rotations</li> <li>Symmetry</li> </ul>	<b>Measurement applications</b> <ul style="list-style-type: none"> <li>Choose appropriate units</li> <li>Use measurement in everyday situations</li> <li>Problem solving</li> <li>Area and perimeter applications</li> </ul>
Unit 5	<b>Statistics</b>	<b>Space</b>	<b>Measurement Number</b>	<b>Space</b>
	<b>Data: Representation and interpretation</b> <ul style="list-style-type: none"> <li>Collect data</li> <li>Validate data</li> <li>Represent data</li> </ul>	<b>2D space and 3D objects</b> <ul style="list-style-type: none"> <li>Connect 2D shapes with 3D objects</li> <li>Connect &amp; create nets</li> <li>Sketch 3D objects</li> </ul>	<b>Capacity and mass</b> <ul style="list-style-type: none"> <li>Kilolitres, litres &amp; millilitres</li> <li>Tonnes, kilograms &amp; grams</li> <li>Compare &amp; order</li> <li>Estimate</li> <li>Problem solving</li> </ul>	<b>Space review</b> <ul style="list-style-type: none"> <li>Review transformations</li> <li>Tessellation patterns</li> <li>Review Cartesian plane</li> </ul>

Strand	Outcomes and content descriptions	Located
Number	<b>AC9M5N01</b> interpret, compare and order numbers with more than 2 decimal places, including numbers greater than one, using place value understanding; represent these on a number line	T1 U1 T3 U1, U5
	<b>AC9M5N02</b> express natural numbers as products of their factors, recognise multiples and determine if one number is divisible by another	T1 U3 T2 U2 T3 U2 T4 U1
	<b>AC9M5N03</b> compare and order fractions with the same and related denominators including mixed numerals, applying knowledge of factors and multiples; represent these fractions on a number line	T2 U1 T3 U1
	<b>AC9M5N04</b> recognise that 100% represents the complete whole and use percentages to describe, represent and compare relative size; connect familiar percentages to their decimal and fraction equivalents	T3 U1
	<b>AC9M5N05</b> solve problems involving addition and subtraction of fractions with the same or related denominators, using different strategies	T2 U1 T4 U1
	<b>AC9M5N06</b> solve problems involving multiplication of larger numbers by one- or two-digit numbers, choosing efficient calculation strategies and using digital tools where appropriate; check the reasonableness of answers	T2 U2 T3 U2 T4 U1
	<b>AC9M5N07</b> solve problems involving division, choosing efficient strategies and using digital tools where appropriate; interpret any remainder according to the context and express results as a whole number, decimal or fraction	T2 U2 T3 U1, U2 T4 U1
	<b>AC9M5N08</b> check and explain the reasonableness of solutions to problems including financial contexts using estimation strategies appropriate to the context	T1 U2, U4 T2 U2
	<b>AC9M5N09</b> use mathematical modelling to solve practical problems involving additive and multiplicative situations including financial contexts; formulate the problems, choosing operations and efficient calculation strategies, using digital tools where appropriate; interpret and communicate solutions in terms of the situation	T1 U2 T2 U2, U4 T3 U2 T4 U1
	<b>AC9M5N010</b> create and use algorithms involving a sequence of steps and decisions and digital tools to experiment with factors, multiples and divisibility; identify, interpret and describe emerging patterns	T1 U3 T2 U3
Algebra	<b>AC9M5A01</b> recognise and explain the connection between multiplication and division as inverse operations and use this to develop families of number facts	T1 U3 T2 U3
	<b>AC9M5A02</b> find unknown values in numerical equations involving multiplication and division using the properties of numbers and operations	T1 U3 T2 U3
