

Meme the classroom

Meme the classroom is a great way to set classroom expectations in a fun and engaging way.

Using the templates provided, your students will come up with their own memes for classroom rules.

Instructions:

1. Divide students into groups of 3 or 4.
2. Provide each group with the meme templates and a specific class rule.
3. Students can then come up with their own memes for the classroom rule.

Hint: The rules don't have to be added word-for-word to the templates. Please see the example shown.
