

Six-Word Story

Six-word stories are a fun, low-stakes and creative way to explore word choice in writing. Challenge your students to write their own as a way to get to know a partner in their class.

Instructions:

1. Print six-word story worksheets..
2. Split students into pairs (preferably pairs who might not know each other too well).
3. Have each student write a six-word story about themselves. *Note: The story could be about their life, what they did over the holidays or their or their goals.*
4. Students then swap sheets and write a response.
