1 A Mupset Street
Dunbeena NT 1010

Dear Sir,

As a long term resident of Dunbeena, I am frustrated and alarmed by the inability of the government to provide us with a consistent ambulance emergency service. I have been forced to realise that local councillors and public servants are unable to understand the plight of our little community.

For the past six long months, Dunbeena residents have been without 24 hour ambulance coverage. Instead we have had to rely on the goodwill of the handful of community members with medical training to assist the sick and elderly.

What we need are strong leaders who are willing to make decisions to benefit all members of the local community. We need them to fund the ongoing rostering of ambulance officers, and to commit to the building of a new and permanent ambulance station in the Dunbeena area.

Access to adequate emergency services is a right for all residents. You don't have to be Einstein to work out what should be done!

Yours faithfully,

Crang Key
