### Storm Hits Local Suburb

By: Win D. Hair

Willydilly emergency services volunteers were kept very busy last Friday night, after 95km/hour winds battered the usually quiet suburb.

Volunteers removed trees that blocked Ding Dong Street and Whos There Crescent, while local residents also pitched in by lending spare ladders and spotlights.

Emergency services said they received 59 calls for help after trees fell on cars and caravans, and home awnings and fences collapsed.

The nearby suburb of Wingwang had a quieter period, with only a couple of calls regarding road signs that had fallen down and a billboard that was threatening to blow over.

Volunteers from Wingwang are travelling over to Willydilly to help with the storm clean up. So far no injuries have been reported.

There will be an information session for affected residents held tomorrow night in Wingwang Town Hall at 7:30pm. For details call: 00 9988 9988
