## *A Guide to the Gold Coast*

### **Location**

The Gold Coast is in South Eastern Queensland, one hour south of the state's capital Brisbane. It features 70km of uninterrupted coastline and is famous for its white, sandy beaches.

### **Getting There**

From within Australia, the closest airport is Coolangatta, just 30 minutes drive from the centre of the Gold Coast. If travelling by car, the Gold Coast can be reached by either the Pacific or the New England Highways.

From outside Australia, direct international flights into Brisbane are available. Travellers can then reach the Gold Coast via taxi, train or car hire.

### **Environment**

The Gold Coast has ideal weather for holidays, with an average of 300 sunny days per year. The Gold Coast is famous for its many beaches, apartments and skyscraper buildings. However, the Gold Coast also features one of the largest subtropical rainforests in the world. There are four national parks in the area and one marine park. Places to visit include Surfer's Paradise, Rainbow Bay, Sanctuary Cove and Mount Tamborine.

### **Amusement Parks**

While famous for its sunny beaches and scenic rainforests, the Gold Coast is equally well-known as the Theme Park capital of Australia. Children and adults alike will have the time of their lives at any one of the amazing Worlds the Gold Coast has to offer. Dare to ride the roller coaster at Dream World, brave the rapids at Wet n' Wild Water World, or become part of your favourite movie at Warner Bros. Movie World. Ticket deals are available which allow you access to one or all of the parks all day every day!
