Selecting, creating and assigning word lists + how to add your own words!

At the core of your Readiwriter Spelling experience are word lists. You can choose from hundreds of pre-created, curriculum-aligned word lists or create your own, using the over 10,000 words in our Readiwriter Spelling word bank.

Word lists are assigned to either your whole class or a differentiated group. When students log into Readiwriter Spelling, they select the word list that you've set.

Before you get started on the guide – don't forget that you can use our in-program walk through to complete any of the tasks below. On your teacher console – simply select from the main screen the task you'd like to complete.
